FEEDBACK on Zone structure has been very positive with all sporting directors active in supporting the clubs within their zones. These zones have been created and in some cases modified in an attempt to allow greater support from your directors in matters such as grounds, judges, insurance, dates etc. But also to try to add value to our zone championships with a balanced number of clubs represented in each zone.

It is not the boards intention to demand a club be part of any particular zone and welcome any feedback that will assist us in developing these zone areas further.
